

## Amount Due to Each Family Worksheet

If you receive more than one withholding order for the same employee and there are not enough wages to cover the total of all withholding orders, State law requires that each family receive a pro-rata share of the amount of wages available for withholding.

1. Enter the amount available for withholding 1. \_\_\_\_\_
2. Calculate the total amount to be withheld from all orders
  - 2a. Family A \_\_\_\_\_
  - 2b. Family B \_\_\_\_\_
  - 2c. Family C \_\_\_\_\_
  - 2d. Family D \_\_\_\_\_

Total lines 2a through 2d 2. \_\_\_\_\_
3. Calculate the pro-rata share (percentage) of each order
  - 3a. Line 2a ÷ Line 2 = \_\_\_\_\_%
  - 3b. Line 2b ÷ Line 2 = \_\_\_\_\_%
  - 3c. Line 2c ÷ Line 2 = \_\_\_\_\_%
  - 3d. Line 2d ÷ Line 2 = \_\_\_\_\_%
4. Calculate the amount due to each family
  - Line 1 X Line 3a = \$ \_\_\_\_\_ due to Family A
  - Line 1 X Line 3b = \$ \_\_\_\_\_ due to Family B
  - Line 1 X Line 3c = \$ \_\_\_\_\_ due to Family C
  - Line 1 X Line 3d = \$ \_\_\_\_\_ due to Family D

This form may be used to calculate current support, payments on arrears due to each family or payments for costs due to the State when the total wages available are not enough to cover the total amount to be withheld.
